

Battery log file logs battery information below.

1. Event
 - 0: Autonomic (either by 30 minute timer or by Battery insertion event)
 - 1: Login
 - 2: Logoff
 - 3: Suspend
 - 4: Resume
 - 5:AC/DC Power Source Change
2. Charge status
 - 0: No activity (no charge or discharge current)
 - 1: Charge
 - 2: Discharge
3. AC/DC mode
 - 0: DC (battery) power
 - 1: AC Power
4. Battery Charge remaining (%)
5. Remaining capacity (mWh)
6. Full charge capacity (mWh)
7. Cycle count
8. Remaining Time
 - When Charging: Average Time to Full (estimate of remaining time to full charge)
 - When Discharging: Average Time to Empty (estimate of remaining time to battery empty)
9. Total Charged Capacity (Wh)
10. Total Battery Awake Hrs
11. Hours at/near Full Charge
12. Hours at High Temperature (>45 deg C)
13. Hours at Full Charge and High Temperature
